

GUILLERMO BLANCO

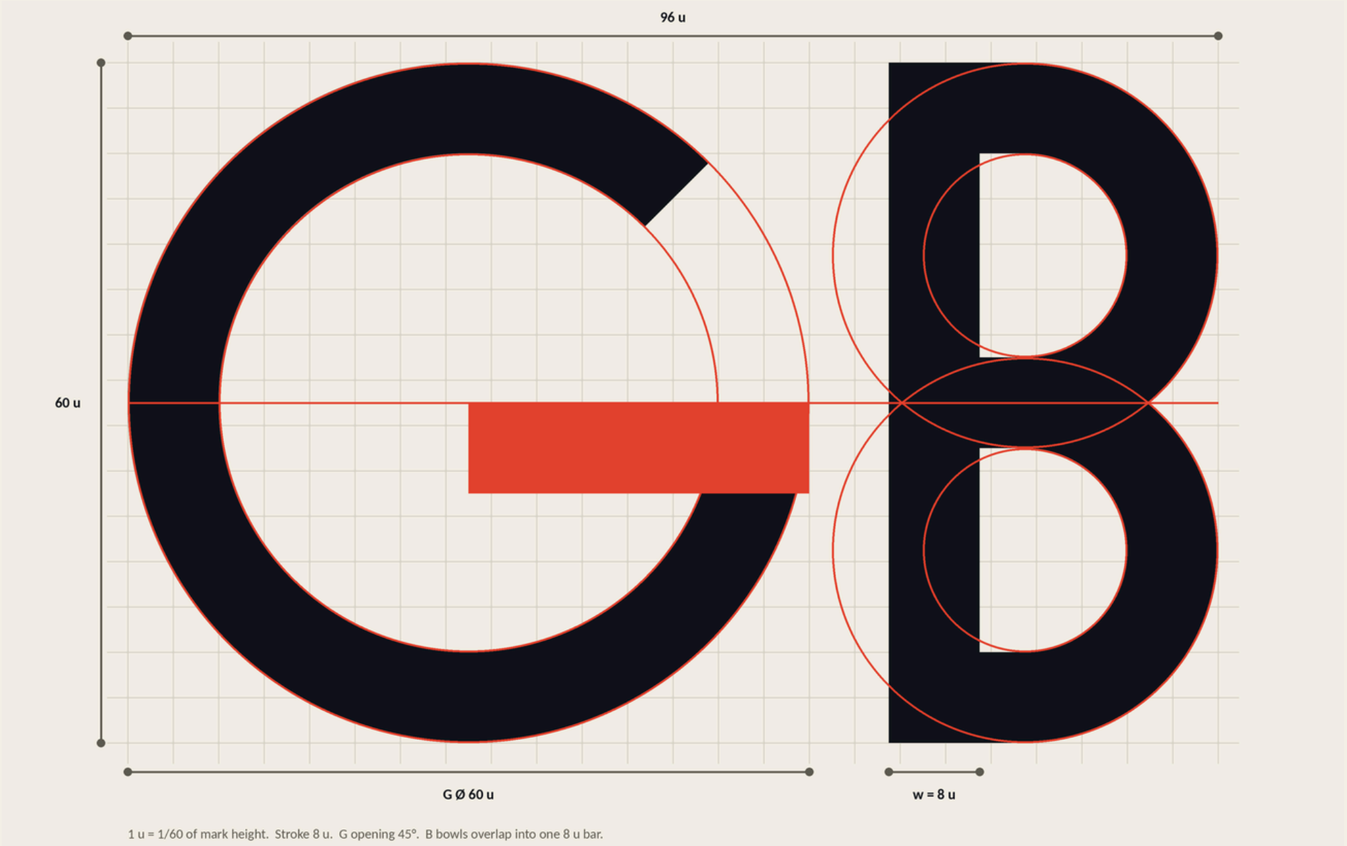

BRAND GUIDELINES · VERSION 1.0 · OCTOBER 2026

One unit.
One proportion.
Nothing placed by eye.

Every size is a multiple of the grid unit (64px) or of the mark's own unit (1 u = 1/60 of its height). Every circle scales by φ = 1.618. Decoration never competes with the name because it is built from the same rules.

Voice

- Short, declarative, exact.
- "Guillermo Blanco" in running text; capitals only in the wordmark and labels.
- No exclamation marks, emoji or superlatives.

1 u = 1/60 of mark height. Stroke 8 u. G opening 45°. B bowls overlap into one 8 u bar.

Drawn from circles and rectangles.

- 96 × 60 unit grid, one 8 u stroke.
- G: ring Ø 60 u, 45° opening at the upper right, crossbar 8 u thick from centre to edge.
- B: stem 8 u, three bars, two half-ring bowls r = 17 u that overlap into one bar.
- Gap between G and B: 7 u.
- Never redraw, retype or respace. Use the files.

Primary — ink + vermilion crossbar, on paper.

Reversed — paper + vermilion, on ink.

Mono ink — one colour print, stamps.

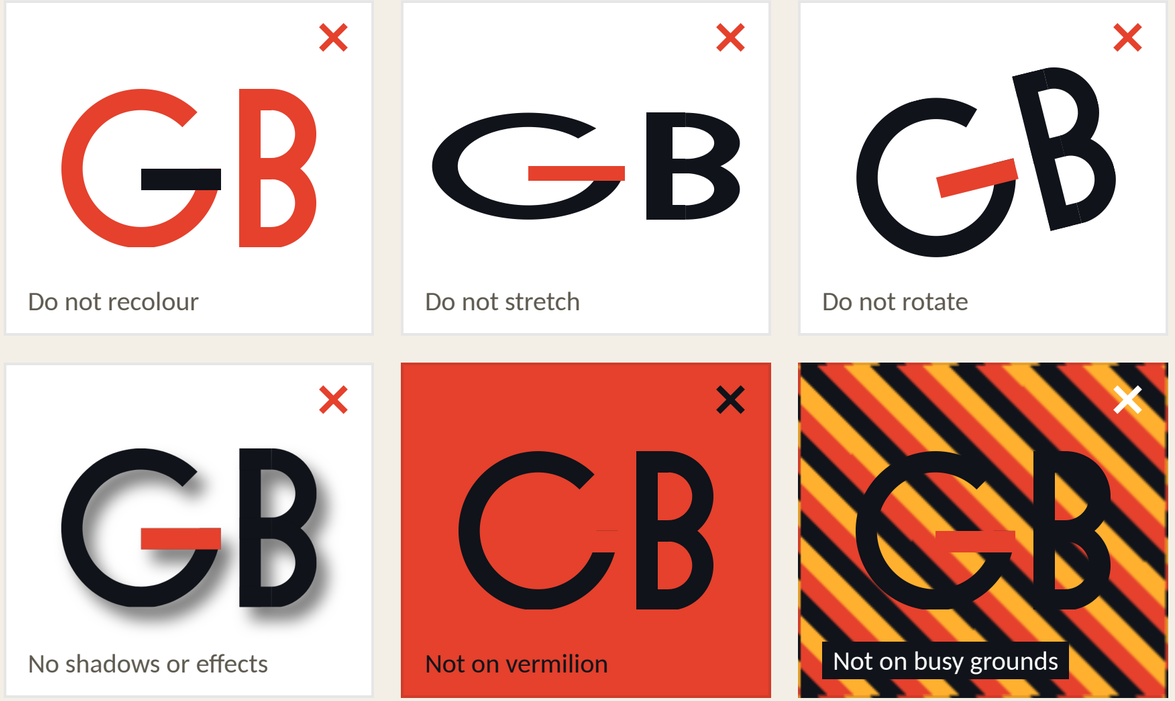

Mono paper — one colour on dark.

- Keep x = 15 u clear on all sides.
- Minimum mark height: 24px on screen, 8 mm in print.
- Lockup: mark at least 32px high.

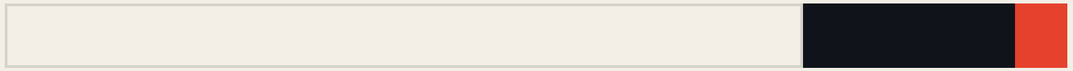

Paper
#F3EFE6
RGB 243 239 230
Ground

Ink
#10131A
RGB 16 19 26
Mark, text, dark ground

Vermilion
#E5412D
RGB 229 65 45
The single accent

Stone
#5E5A50
RGB 94 90 80
Secondary text

Proportion

Ground 70–80%, content 15–25%, vermilion at most 10%. One accent per view: a crossbar, or an arc, or a dot — not all three.

Contrast

PAIR	RATIO	USE
Ink on paper	16.2 : 1	All text
Stone on paper	6.0 : 1	Captions
Vermilion on ink	4.6 : 1	Type ≥ 24px
Vermilion on paper	3.6 : 1	Marks, large type only

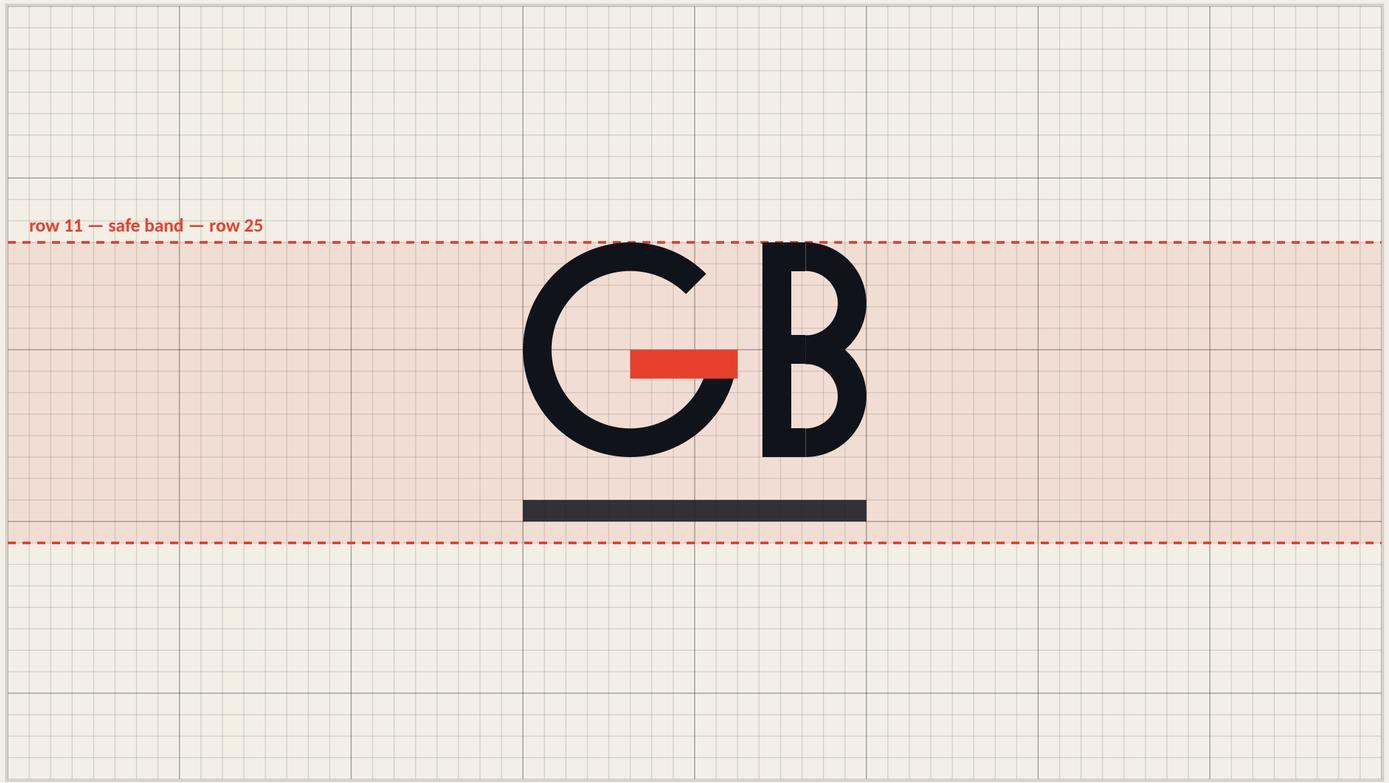

Aa

Carlito — one family, two weights.
Calibri-compatible, open licence (SIL OFL). Files in /fonts.

GUILLERMO BLANCO

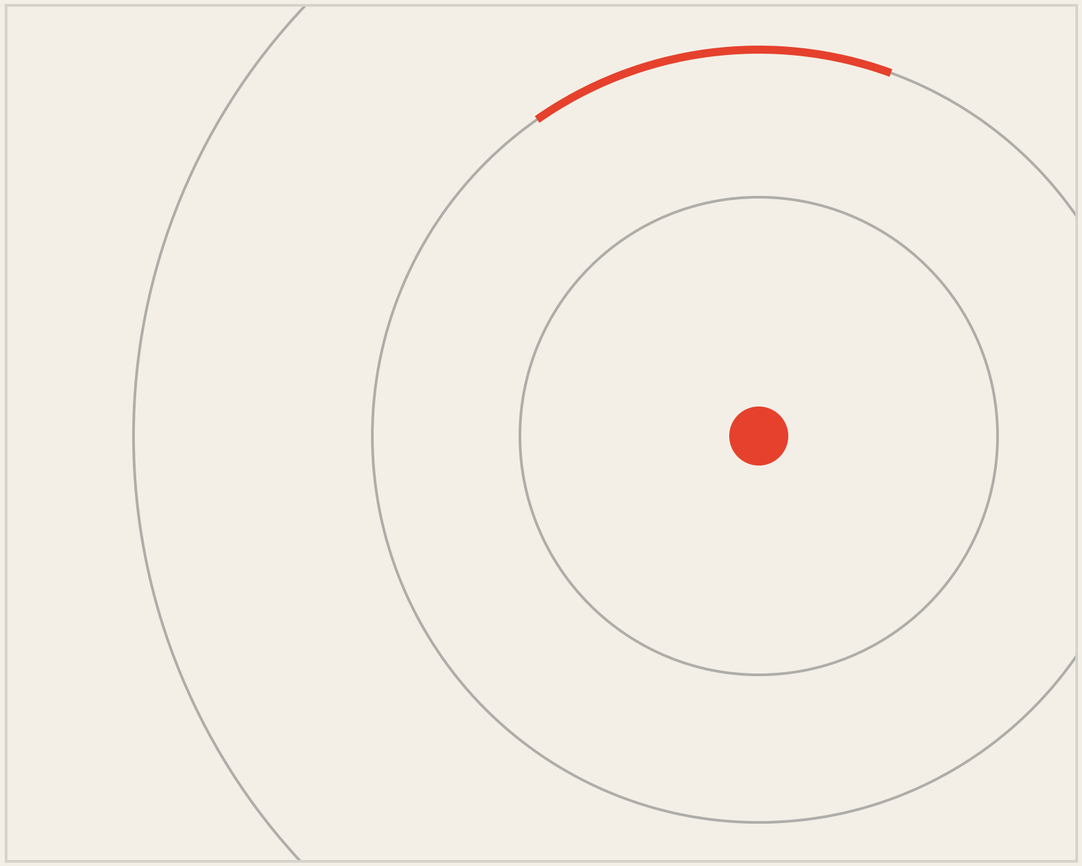

STYLE	SPEC
Display	Bold 80/76 · sentence case
Heading	Bold 32/38
Subheading	Bold 20/26
Body text	Regular 16/24
Caption	Regular 13/18 · stone
LABEL	Bold 12/16 · tracking .2em

- Lines under 70 characters; align left.
- Justify only the wordmark, by tracking.
- No second family.

64 × 36 units

- Unit = 64px. A 4096 × 2304 canvas is 64 × 36 units; any 16:9 canvas keeps the division.
- Margins: 2 units. Gaps: 2 units between related objects, 4 between groups.
- Asymmetric splits at 1/φ, not at half.
- Square corners. Round only dots and the ring disc.
- Lockup sits half a unit above centre.

Rings and a ruler

- Concentric rings, radius n = 320px × φ^n, n = 1…4, 2px hairline.
- At most one vermilion arc (35–55°) and one vermilion dot of 2 units.
- Ruler on the top and bottom margins: tick every unit, long tick every 8.
- Fade rings out before text; never cross the mark or wordmark.
- No photography, gradients, shadows or other patterns with it.

Icon 512 × 512 · PNG, 24-bit, no transparency, ≤ 1 MB. The mark lies inside the central 80% circle, so a circular mask never touches it.

Header 4096 × 2304 · JPEG, ≤ 1 MB. Lockup at x = 8, y = 14 units; rings fade before the text; all key content in the central band (rows 11–25).

Everything is in the repository.

- **assets/logos** — 4 mark SVGs, 2 lockup PNGs
- **assets/diagrams** — construction, clear space
- **assets/google-play** — icon 512, header 4096×2304
- **tokens** — tokens.json, tokens.css
- **fonts** — Carlito Regular, Bold
- **brand-book.md** — the guidelines as text
